

PRESS RELEASE

E-TECH EUROPE 2022

The landmark international trade fair event dedicated to innovative electrical and electronic technologies

12 and 13 April 2022
BolognaFiere Exhibition Centre, Italy

For information: +39 02 6630 6866 | www.e-tech.show

Bologna, 2nd November 2021 - **E-TECH 2022**, the international event for **innovative electrical and electronic technologies**, wants to position itself as the reference point for the **next industrial and economic “revolution”**, which will involve the entire supply chain across the **electrification and electronics sectors**, in particular for the **automotive world**.

The first edition of **E-TECH EUROPE 2022, the European Electrical and Electronic Technologies Exhibition & Conference**, will take place in the prestigious **Bologna Exhibition Center**, on **12-13 April 2022**.

In an exhibition area of over 12,000 square meters, hundreds of companies will showcase the best of national and international technologies and production: in these sectors, as in many others, Europe is at the forefront of the world, and its companies are ready to seize the opportunities offered by the electrical and electronic “revolution” already underway.

In Bologna, in the heart of the Italian **E-Motor Valley**, **powertrains, drivetrains, new architectures for the automotive, batteries, inverters and converters, electric motors and electric coil technologies, supercapacitors, composites, metals, minerals and innovative materials (lithium, nickel, cobalt, manganese, copper, silicon, graphite, graphene, etc.), components, equipment and machinery, engineering, design, services**, and more, will be the stars of this significant event that will attract the attention of the international media, and thousands of specialized visitors from across Europe.

E-TECH 2022 will consist of 5 main trade shows:

**BATTERY
INDUSTRY
EUROPE 2022**

BATTERY INDUSTRY EUROPE 2022

Production technologies and the battery industry

**SUPERCAP
EUROPE 2022**

SUPERCAP EUROPE 2022

Supercapacitors / ultracapacitors

**EVtech
EUROPE 2022**

EVTECH EUROPE 2022

Technologies, materials and components for the electric vehicle industry

**E-MOTORS
EUROPE 2022**

E-MOTORS EUROPE 2022

Electric motors and windings

**E-METALS
MINERALS, ADVANCED MATERIALS
& RECYCLING 2022**

E-METALS & MATERIALS 2022

Metals, minerals and advanced materials for industry

E-TECH 2022 will also host **FORTRONIC 2022**, the benchmark event for technological innovations in power electronics.

The event will include the extensive program of meetings and conferences of the **WORLD E-TECH CONFERENCE (WEC 2022)**: the latest issues for the various sectors involved will be addressed by members of the academic world, industry and prestigious research centers, together with industry associations and institutions.
