Although BolognaFiere Spa provides a general day and night security service inside the Exhibition Centre when the Centre is closed to the public and Exhibitors for the entire duration of the Exhibition and during the stand installation and dismantling periods, it is hereby released from any and all responsibility in respect of theft and/or damage that may be sustained by the Exhibitor. The Exhibitor shall also be responsible to BolognaFiere for all direct and consequential damage which for any reason is attributable to him or to the personnel working for him (including damage caused by the furnishings or by the systems set up either by the Exhibitor or by third parties hired to do so, even if they have been inspected by BolognaFiere).

EXHIBITION TECHNICAL REGULATIONS

policies do not release the Exhibitor from liability in respect of all risks which, according to the independent assessment of the Exhibitor, are not covered or exceed the limits of cover as set out above. The Exhibitor shall take out such supplementary cover as he deems appropriate.

In particular, given the existence of a video surveillance system, in case of theft, a report must be presented to the Public Authorities and forwarded to the Insurance Company within seven days of the end of the exhibition. Failure to meet this deadline may result in forfeiture of the right to compensation.

The Insurance Company will also handle claims and settlements at the end of the exhibition.

In any case, the Exhibitor undertakes to include in the supplementary insurance cover a clause in which the Insurance Company waives all recourse to action against the Exhibitors and BolognaFiere, and in default he shall indemnify them from any action that may be brought against them.

Having taken note of the above, the Exhibitor (on his own account and that of his agents, employees or assistants) in any case expressly relieves BolognaFiere from any liability for loss or damage which for any reason should occur in the exhibition area assigned to him, during the exhibition or during installation or dismantling, and in respect of anything located therein, and accepts liability for any damage caused to third parties by the management of the exhibition space or by anything introduced therein and which is not covered in the terms or manner indicated above or by additional insurance cover taken out by the Exhibitor himself.

BolognaFiere will accept no liability for consequential damages, damage to image, loss of revenues, etc. As regards direct damages, the Exhibitor accepts that the liability of BolognaFiere shall be limited to the insurance cover limits as stated above. The Exhibitor accepts these limits of liability.

3 • STAND FURNISHINGS AND PROHIBITIONS

3.A - DEFINITION OF TYPE OF STAND SET-UP AND APPROVAL PROCEDURE

Stand set-up, regardless of surface area, is classified as follow:

- standard set-up
- non-standard set-up

Non-standard set-up entails even just one of the following features:

- "Truss structures" with clear structural span exceeding 8.00 mt or with total length exceeding 32.00 mt
- Horizontal metal or non-metal structures with clear span exceeding 4.50 mt
- Loft with space on upper level, even if not accessible to the public
- Platform over 0.80 mt height

For all structures exceeding 3,50 mt of height a static test will be obligatory.

All structures set up in external areas with a covered surface area greater than 75 sqm are to be considered non-standard furnishings.

Because the Exhibition Centre has obtained authorization for use of the exhibition spaces based on a traditional set-up scheme, i.e., with parameters defined as STANDARD, **an Exhibitor who proposes a set-up with even one of the above-mentioned characteristics must, by 25 March 2022, transmit (by fax or certified email) the design for the off-standard set-up, with signature and seal of a qualified engineer/architect, both to the Organizer and BolognaFiere for approval to the following email address: tecnico3@bolognafiere.it.**

If the Exhibitor is not in possession of the design or the off-standard set-up signed by a qualified engineer/architect, the Exhibitor may, by using the appropriate form on Befair e-commerce platform (www.befair.eu) request BolognaFiere to conduct an advance check of the design.

If the signed and sealed design for the off-standard structures is not transmitted to BolognaFiere, an inspection and validation will automatically be conducted and the Exhibitor will be charged twice the regular cost for such service specified on the above-mentioned forms (www.befair.eu)

Under all circumstances, BolognaFiere reserves the right to prohibit the assembly of off-standard set-ups that have not been approved in advance. For the non-standard furnishings a static test is obligatory and shall be performed exclusively by BolognaFiere. For this purpose **the Exhibitor will be charged an amount corresponding to the type of furnishing**, indicated in the specific form on www.befair.eu.

In all cases, the construction of complex latticed metal ("American") structures (total length exceeding 32.00 mt, calculating both vertical and horizontal structures, and/or with clear structural span exceeding 8.00 mt) or horizontal metal or non-metal structures with clear exceeding 4.5 mt, as well as intermediate floors, is subject to the transmission (by fax or certified email) to BolognaFiere structure's design, signed by the qualified engineer/architect, inclusive of a calculation report specifying load

EXHIBITION TECHNICAL REGULATIONS

conditions during assembly and disassembly based on the construction method involved, as well as a certificate of correct assembly (at the end of work), signed by a qualified technician.

In any case, BolognaFiere has ever the right to examine stand projects that fall outside conventional set-ups in terms of dimensions and potential danger. The Exhibitor must provide technical drawings and calculation with the names of the technicians responsible for the structural part, furnishing, for the set-ups, for aspects regarding health and safety at the workplace, and for the systems. The same obligation applies for stands built in external areas. BolognaFiere may request the intervention of the Supervisory Committee for places of public entertainment.

If, during the set-up phase, BolognaFiere assesses that the structure does not meet the required requirements, or if it identifies precarious situations, it may request timely adaptation. In the event of serious non-compliance that may lead to dangerous situations, BolognaFiere and the Organizer will evaluate the possibility of prohibiting the opening of the stand to the public.

3.B - STAND FURNISHING

The Exhibitor shall limit his display to the area allocated to him, as marked off by partition walls, painted lines or adhesive tape; on the front of the stands where there are no other reference elements

Inside the halls the stands may not exceed a standard height of 3,50 m. In order to take account of any added thickness due to raised floors, lighting elements and light supports, including lattice structures, a maximum tolerance of a further 0,50 m will be allowed, taking the above-specified limit to 3,00 m, on condition that the structures whose sides face adjoining stands are perfectly finished and painted in a neutral, solid colour.

Changes to stand heights of more than 3,50 m (and, in any case, within 6,00 m) may only be made upon written request by the Exhibitor and written approval by the Organizer and BolognaFiere.

Suspended piles and the related suspension systems, must be made in accordance with the directives from the Ministry of the Interior dated 01/04/2011 providing, in addition to the main connection system (belt, chain, auction...), also a safety connection. For "suspended loads" we refer to truss structures (simple type or "ring" type) or other types of beams or facilities and all related piles (monitors, projectors, lights, speakers and other sub-structures..) that are bound to a top or bottom structure or via a lifting element.

The listed items must be in accordance and in possession of all the documents included in the said above Ministry of the Interior Action. The Exhibitor must keep inside the stand, in sight and ready to use, fire extinguishers in adequate quantity to the surface of the stand, as provided by BolognaFiere.

If the installation also includes glass walls placed in direct contact with the public, these walls must comply with the EU Construction Products Regulation 305/2011, implemented with Legislative Decree no. 16 of 16.06.2017, as well as subsequent amendments and additions.

Large glass walls that have a load-bearing function must be integrated with a suitable support structure (e.g. metal frame).

Hangings are possible only in halls 14, 15, 16, 18, 19 and partially in halls 28, 29, 30, 36, 37.

The hanging points on the structures of the halls can be made exclusively by BolognaFiere, which will also carry out the testing of the same. Send a feasibility request by email to the BolognaFiere technical offices. Anchoring to floors and / or structures are strictly prohibited throughout the Exhibition Center. Double ceilings are permitted only if they are made from grill-type or perforated panels to allow the proper use of the sprinkler fire-fighting system.

All liability for the stability of the furnishings and the compliance of the furnishing materials with the fire prevention regulations currently in force shall be solely for the Exhibitor's account, who expressly relieves BolognaFiere of liability for any damage that may result from design and construction defects, including the dimensioning as inferred from the detailed drawings of the areas occupied.

Any job that entails changes in the actual state of BolognaFiere's fixed and movable property (reinforcements, modifications, excavations, holes in fixtures, walls, structures and floor columns) may only be carried out with the prior authorisation of BolognaFiere Spa, and shall be done at the expense and under the responsibility of the participant.

This responsibility shall remain the Exhibitor's for the entire duration of the Exhibition until the stand is handed back to BolognaFiere Spa. Prior to starting work the participant is required to make over to BolognaFiere Spa an amount equal to the cost required to restore the stand to its original state, which will be undertaken by BolognaFiere Spa.

It is forbidden for Exhibitors and fitters, during the exhibition set-up and knock-down period, to abandon debris and/or wastes of any kind, in the exhibits and surrounding areas.

The Exhibitor shall notify his personnel and the firms operating on his behalf in the Exhibition Centre of the requirements and prohibitions as set out in these Regulations and in the Safety File, and also of the general rules of participation in the Exhibition.
