PRESS RELEASE

E-TECH EUROPE 2025

*Appointment at BolognaFiere on April 15th and 16th of next year
with the fourth edition of the trade fair dedicated to 360° vehicle electrification*

Cormano, 22 novembre 2024 - With only a few months to go, **E-TECH EUROPE 2025** is ready to take off. The international exhibition dedicated to advanced batteries and innovative technologies for motor vehicle production, transport, machinery, electric and hybrid industrial vehicles, and their recycling, will be held from **15 -16 April** next year at **Bologna Exhibition Centre** (halls 21 and 22), in the heart of Motor Valley. Now in its fourth edition the event is being revamped and expanded, with the aim of bringing together the **entire vehicle electrification supply chain**. It includes many new features and the involvement of many more companies and sectors.

Covering an area of 12,000 square metres, **E-TECH EUROPE 2025** is the **international showcase** that embraces the **full circle of electrification**. From **automotive to industry**, agriculture, transport, commercial and industrial vehicles, military vehicles, motorcycles, bicycles, various machinery, buses and coaches, ships and boats, and recreational vehicles such as campers, golf carts, etc. It ranges from construction site and mining vehicles to ground support equipment for airports, AGV autonomous guided vehicles to AMR collaborative robots, aeroplanes to eVTOLs and drones and from submarines to **space vehicles**. In short, all the electric and hybrid knowledge, multiple components, machinery, software and connected services, and also including cybersecurity, which is becoming increasingly crucial.

E-TECH EUROPE is much more than a trade fair: it is an **unmissable business opportunity**, professional growth and training, a font of ideas, **a dedicate place for meeting**, discussing and exchanging know-how between operators in all sectors of energy transition and innovative technologies for the production of electric vehicles. It is a unique opportunity to get up to speed with the latest innovations in the sector and strategies for the future.
